Certificate
for the constructor's qualification for welding of steel structures according to DIN 18800-7:2002-09
Class E

It is hereby certified that the manufacturer

EEW Korea Co., Ltd

with plant in

**Bangji-Ri 598
Sanam-Myeon, Sacheon-Si
Gyeongsangnam-Do 664-942
Korea, Republic of**

has employed the required personnel and equipment to carry out welding works of load bearing steel structures within the following scope of application:

Standard / Regulations:

**DIN 18800-7: execution and constructor's qualification
DIN 15018 - cranes
DIN 4132 - crane runways, steel structures**

Welding Process:

(Reference number acc. to DIN EN ISO 4063)

**111, Manual arc welding with covered electrode
135, Semi-automatic gas metal arc welding
136, Semi-automatic flux cored metal-arc welding
121, Submerged arc welding with wire electrode**

Base Materials:

**S235, S275, S355 acc. to the relevant valid Bauregelliste and
Anpassungsrichtlinie Stahlbau**

Extensions/Restrictions:

Responsible welding supervisor:
(Name, first name, date of birth, Qualification)

Mr. In-Chai Moon; born 1966-11-07; IWE

Deputy:
(Name, first name, date of birth, Qualification)

Mr. Yu-Nam Jung; born 1976-10-10; Graduation in Mat. Engineering

Remarks:

Serial production of hollow sections for on- and off-shore structures.

Period of validity:

2009-11-23 to: 2012-11-30

Certificate-no.:

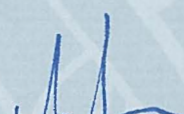

WF 0910427 HH Rev.01

issued on:

2009-11-23

General terms:

General terms

1. Before carrying out welding work this certificate - as certified copy - has to be submitted to the responsible construction authorities.
2. For advertisement or other purposes this certificate may only be duplicated or published in full. The text of any advertisement must not be in contradiction to this certificate.
3. The inspecting body has to be informed in time of welding coordinator(s) mentioned in this certificate leaving the company, or of changes in the welding processes or of changes of essential parts of the welding facilities. If considered necessary by the inspecting body a new inspection of the company will take place.
4. If doubts arise regarding the qualification of the company the right of inspection and checks of the company by the inspecting body and without prior announcement is being reserved.
5. This certificate may at any time and with immediate effect be withdrawn - without any loss compensation - or supplemented or modified if the conditions under which this certificate has been issued have changed or if the requirements laid down in this certificate are not complied with.
6. At least two months before expiry an application for renewal has to be submitted to the inspecting body.

Remarks: Mr. In-Chai Moon and Mr. Yu-Nam Yung fulfill the premises for the execution of welder / operator examinations of their workshop acc. to element 1310 of DIN 18800-7.

CC:
